Tools & Other Skills: SEO, Version Control (Git),, Testing and Debugging, DevOps (CI/CD), Cloud Services.

EXPERIENCE

Full Stack Developer
Bizreck Solutions, Noida UP, India
Feb 2023 – Current (Remote)

Developed and maintained web applications using Node.js, Vue.js, and React.
Implemented RESTful APIs to facilitate seamless data exchange between front-end and back-end systems.
Collaborated with cross-functional teams to define project requirements and deliver high-quality software solutions.
Ensured optimal performance and responsiveness of applications by conducting thorough testing and debugging.
Integrated third-party services and APIs to enhance application functionality.
Contributed to the continuous improvement of development processes and methodologies.

EDUCATION

Bachelor of Computer Applications
Manipal University Jaipur
Mar 2022 – Apr 2025 (Expected)

PROJECTS

Urvigo - SaaS Application
UP, India
Dec 2023 – Current

Urvigo, a full stack SaaS application designed to empower vendors by offering a comprehensive platform for service listings. Urvigo's key features include service listing, bid placement, custom requirement listings, and real-time chat for price negotiations. Vendors benefit from a robust dashboard where they can add new services, offer discounts, manage bookings, and handle payments seamlessly. The application aims to streamline vendor operations and enhance user experience, providing a versatile and efficient solution for service management. Skills used - *Nodejs, My Sql, Vue.js, REST APIs, Pinia States, Vuetify theme, Saas, socket.io, realtime features, TypeScript, Inertia.js and more.*

London Taste Models
London, UK
Jul 2023 – Nov 2023

I developed this sophisticated web application utilizing React and Redux for state management, complemented by Material UI to achieve a sleek and responsive design. The application features RESTful API integration, facilitating seamless data interaction and dynamic content updates., I ensured a user-friendly login process. Additionally, I created a role-based admin dashboard to efficiently manage user permissions and content. While my primary focus was on the frontend, I also contributed to the backend, enhancing the overall functionality and performance of the application. Skills used - *React.js, REST APIs, Redux.js, Material-UI, TypeScript, and Inertia.js and more.*
